PROFESSIONAL EXPERIENCE

Software Developer
Tudip Technologies Pvt. Ltd

09/2021 - Present   *Pune*

PROJECTS

Brightside - Online Mentoring (09/2021 - Present)
- Designed and built applications using Angular, HTML, SCSS, and TypeScript, focusing on user experience and functionality.
- Created RESTful APIs and rigorously tested them with Postman before integrating them into Angular projects.
- Developed intuitive login pages with Single Sign-On (SSO) and user-friendly main pages, including features for favorites and configuration settings.
- Implemented translation features for diverse users, making the platform accessible to international partners.
- Streamlined user onboarding with Email Invitation functionality, enabling new users to join projects seamlessly.
- Enhanced privacy with redaction moderation in the messaging service, ensuring sensitive information is protected until verified.
- Integrated Video Call functionality using Twilio, enriching communication options for users.
- Prioritized quality assurance by promptly resolving issues and continuously improving deliverables.
- Managed SSL certificate renewals for partners, ensuring ongoing security compliance.

Omnia Markets - Premium cryptocurrency Analytics (07/2022 - Present)
- Made the UI responsive across various devices by implementing media queries.
- Certainly! Here's a simplified version: Made the UI responsive across various devices by implementing media queries.Developed a pricing alert system allowing users to set upper and lower limits for coin values and receive notifications accordingly.
- Implemented a dark mode button across all web pages to reduce screen brightness.
- Addressed issues identified during testing cycles and consistently improved deliverable quality.
